EDUCATION

Bangkok University

June 2020 - Dec 2023

- Bachelors of Science, Major in Game and Interactive Media, GPA: 3.66 (First Class Honor)
- Specialization in Game Development using **Unity (C#)**
- Thesis on "Page of the Temperance" collaboration with Bugblo Studio

EXPERIENCES

App Intouch Co., Ltd.

Nov 2025 - Mar 2026

Software Developer (mainly front-end) - Government Projects

- Developed a complex regulatory web application with **dynamic, rule-based form workflows** and **multi-step data handling**.
- Built **conditional rendering logic** and **state-driven UI behaviors** for large-scale government forms.
- Implemented **draft and submission workflows** (Get Draft / Save Draft / Submit form) integrated with backend APIs.
- Designed **file upload and attachment management** with persistent state handling.
- Refactored legacy scripts into **modular structures** to improve maintainability and reduce scope conflicts.

MyHost Company Limited

June 2025 - July 2025

Front-end Developer

- Maintained and developed the **Admin Panel** of a Delivery Management Web Application.
- Built UI Components and integrated APIs using **React, Mantine UI** and **TanStack Query**.
- Fixed bugs and implemented new features requested by the project manager under tight deadlines.
- Adapted quickly to an environment with no onboarding process and high pressure, learning new tools within a short timeframe and consistently delivering results under tight deadlines.

SIDE PROJECTS & EXERCISES

Chat Application (Real-Time Messaging)

MERN Stack | Zustand | DaisyUI | Cloudinary | Socket.IO

- Developed a Full-Stack Chat Application using the **MERN Stack** (MongoDB, Express, React, Node.js) with real-time messaging capabilities powered by Socket.IO
- Implemented robust user authentication and authorization using **JWT** and secure password hashing with **Bcrypt.js** to manage user sessions.
- Managed application state efficiently on the client-side using **Zustand** for global data management.
- Designed and styled a responsive and modern user interface using **React** combined with **Tailwind CSS** and **DaisyUI**
- Integrated **Cloudinray** for secure cloud storage and management of user profile picture and media files.

School Management Dashboard (UI Only)

Next.js | Tailwind CSS

- Developed a responsive School Management Dashboard UI using Next.js and Tailwind CSS, enhancing user experience across devices
- Integrated modular and reusable components to support a maintainable code architecture
- Practice state management using React Hooks and organized project structure to align with industry standards for scalable applications
